

ACE+ Property Data Report (PDR) At-A-Glance

For mortgages with application received dates on or after April 1, 2024, you will be required to use the Uniform Property Dataset (UPD) and must submit PDRs to Freddie Mac using the [bACE API](#). PDR v2.0 will no longer be accepted (refer to [Bulletin 2023-19](#)).

You have options!

With **ACE+ PDR** for purchase, cash-out and certain no cash-out refinances.

To determine eligibility for ACE+ PDR you need to use Loan Product Advisor® (LPASM)

What is ACE+ PDR?

It's an option that allows the lender to accept an appraisal waiver and deliver the mortgage to Freddie Mac with a PDR instead of an appraisal. A PDR is completed with property information collected on site by a trained property data collector using the proprietary Freddie Mac PDR data set or the UPD.

Benefits

- Address appraiser capacity concerns
- Eligible for value representation and warranty relief
- Potential to reduce borrower costs and turn-times

How it Works

It's easy!

Simply **submit** the loan to LPA **before** you get an appraisal. The Feedback Certificate will return specific **messages** if the loan **is eligible** for **ACE+ PDR**.

Note: A Seller that has accepted an ACE+ PDR offer must not make any representation that Freddie Mac has performed a property review or obtained a valuation of the mortgaged premises.
