

Rental income may be used in qualifying the borrower(s) provided the requirements of Guide Section 5306.1 and the documentation requirements contained in Guide Sections 5102.3 and 5102.4 and Chapter 5302 are met. If rental income is not used to qualify the borrower, the requirements of Chapter 5306.1 do not apply.

## Additional Notes:

1. Rental income generated from the borrower’s second home may not be used as stable monthly income.
2. Rental income from the borrower’s 1-unit primary residence may not be used to qualify the borrower unless it meets the requirements in Guide Section 5306.1(b) or Guide Section 4501.9 for Home Possible® mortgages.
3. Rental Income from an accessory unit may be considered for a subject 1-unit investment property and non-subject investment property. Refer to sections 5306.1(b) and 4501.9(a) for information on a 1-unit primary residence with an accessory unit. Refer to Chapter 5601 for property eligibility and appraisal requirements.
4. When rental income from other investment properties owned by the borrower in the previous tax year is reported on the borrower's individual federal tax returns, the Seller must use Schedule E of the borrower's tax returns to determine the net rental income. Signed leases may be used to determine the net rental income for an investment property not owned during the previous tax year.

## Frequently Asked Questions:

1. What constitutes "owning" a primary residence?
  - The borrower must be an individual who is on title to their primary residence but does not need to be the party obligated to repay the indebtedness secured by the mortgaged premises.
2. Is there a time limit associated with documenting when the borrower's one-year investment property management experience occurred?
  - No, there is no historical time limit as long as there is documentation that the borrower has had prior experience managing an investment property for one year at a minimum.
3. Can you use short term rental income to qualify the borrower?
  - Yes; however, the rental income or loss from Schedule E must be annualized for qualification purposes.
4. Are 2- to 4-unit primary residences exempt from the minimum one-year investment property management experience.
  - There is no minimum one-year investment property management experience required. However, excess rental income above the PITI may be used only when the file documents a minimum of one-year investment property management experience.
5. A borrower has owned investment property for several years with no documented event supporting a renovation or evidence that the property had been generating rental income. Can the borrower provide a lease to be used for qualification purposes?
  - No. This scenario does not indicate that the property was purchased or converted for use as an investment in the current calendar year. The most recent tax returns including Schedule E must be annualized for qualification purposes. Refer to the maximum amount of eligible net rental income calculation requirements since the borrower does not have a one-year history of managing rental property.
