Below this information is a navigation bar with three tabs: "Progress and Activities" (which is selected), "Overview & Other Information", and "History".

The main content area is divided into sections. The first section is for the class dates "11-OCT-2023 - 11-OCT-2023", language "English", and type "Webinar". The "Overview" section contains a paragraph: "Want to save time when assessing the borrower's income by using automation? In this webinar, we'll explore how you can use technology within Loan Product Advisor® (LPA™) to drive a more efficient loan origination process by leveraging AIM for income using direct deposits. We'll review what you need to know, how the process works, and help you understand the results."

The "Attachments" section is titled "Class Attachments (1)" and "Notification Attachments". A blue arrow points to a PDF attachment titled "AIM for Income Using Direct Deposits pdf" with the filename "AIM for Income Using Direct Deposits_Participant_8.2.23.pdf".
