

Overview

This Condo Project Advisor Release includes the following enhancements to improve your experience:

New Select City Menu Drop-Down Option

We've updated Condo Project Advisor to include new functionality that allows you to select a city in the New Project Waiver Request page, when there are multiple cities assigned to one zip code. This provides an easier way to more quickly and effectively find the specific project you're looking for.

- If there is only one city assigned to a zip code, that city will automatically populate in the City field.

The screenshot shows the 'New Project Waiver Request' form. Under 'Step 1 - Find Location', the 'Zip' field contains '22314', the 'City' field is a dropdown menu with 'ALEXANDRIA' selected, and the 'State' field contains 'VA'. There are 'FIND PROJECT' and 'CLEAR' buttons to the right.

- The Select City drop-down menu option will only appear if there are multiple cities assigned to a zip code.

The screenshot shows the 'New Project Waiver Request' form. Under 'Step 1 - Find Location', the 'Zip' field contains '94608', the 'City' field is a dropdown menu with 'Select city...' selected, and the 'State' field contains 'CA'. The dropdown menu is open, showing options: 'Select city...', 'EMERYVILLE', and 'OAKLAND'. There are 'FIND PROJECT' and 'CLEAR' buttons to the right.

- In the event you select the wrong city, the City field is editable. To edit the City field when creating a new Project Waiver Request:
 - Click the Clear button and start the new Project Waiver Request over again.
 - Click on the City field to edit the field.
