

Overview

As announced in *Guide Bulletin 2020-36*, Freddie Mac will begin purchasing nonconvertible SOFR-indexed ARMs under the ARM Cash and WAC ARM Guarantor programs effective November 9, 2020.

The Secured Overnight Financing Rate (SOFR) Index is defined as “For ARMs, the Secured Overnight Financing Rate (SOFR) Index is the compounded 30-day Average SOFR as published by the Federal Reserve Bank of New York.” The Federal Reserve Bank of New York (New York Fed) publishes the SOFR Averages and SOFR Index each business day. For the most up-to-date SOFR indices, refer to the [Federal Reserve Bank of New York](#) website.

The sections below identify impacts to Loan Advisor tools including Loan Product Advisor[®] and Loan Selling Advisor[®] for SOFR ARMs.

Loan Product Advisor[®] is the cornerstone of Freddie Mac’s Loan Advisor. It is our automated loan assessment system that indicates whether a mortgage will be eligible for purchase by Freddie Mac. Listed below are key tips to help you prepare for the underwriting and subsequent sale of SOFR ARMS to Freddie Mac.

- On or after October 1, 2020, you may submit SOFR-indexed ARMs through Loan Product Advisor specification version 4.8.01* and provide the following data points:
 - Index Source Type = Other. This data point is required for all ARMs.
 - Index Source Type Other Description (a new data point) = 30 Day Average SOFR
- No updates are necessary for:
 - The Uniform Loan Application Dataset (ULAD), since ARM indexes are not displayed on the Uniform Residential Loan Application (URLA).
 - Uniform Closing Dataset (UCD).

*For Loan Product Advisor v5.0.06 that supports the redesigned Uniform Residential Loan Application, contact your software partner on their implementation readiness. For more information refer to the [Uniform Residential Loan Application & Uniform Loan Application Dataset](#) webpage.

Loan Selling Advisor is our all-in-one system that integrates secondary marketing functions, from pricing to contracting to funding to loan delivery, making it easier for sellers to deliver loans to Freddie Mac. Listed below are key tips to help you sell and deliver SOFR ARMs to Freddie Mac:

- SOFR ARMs adjust every 6 months, not every year.
- The initial fixed periods are 3, 5, 7, and 10 years.
- Margin Min = 1%, Margin Max = 3%
- The Margin will likely differ due to basis and other market-based adjustments.
- Lookback period = 45 days – no change.
- Interest rate cap at first adjustment for 3 and 5 years = +/-2%, for 7 and 10 years = +/-5%.
- Interest rate cap at subsequent adjustments = +/-1%
- Life Cap = 5%

SOFR ARM products will be available in Loan Selling Advisor on November 9, 2020 as follows:

Example

ARM Details, Modification Section

Example

The screenshot displays the 'Create New Loan' interface with a progress bar at the top containing steps: PROPERTY, BORROWER, PARTY, CLOSING, CURRENT, MODIFICATION (highlighted with a red box), CONVERSION, and TOTAL LOANS. Below the progress bar, the 'ARM Details' section is expanded. It contains the following fields:

- Initial Fixed Period Effective Months Count:
- Margin Rate Percent: %
- First Rate Change Payment Effective Date:
- Ceiling Rate Percent: %
- Index Source Type:
- Interest And Payment Adjustment Index Lead Days Count:
- Floor Rate Percent: %
- Disclosed Index Rate Percent: %
- Interest Rate Rounding Type:
- Interest Rate Rounding Percent: %

Below this is the 'First Adjustment' section:

- Per Change Rate Adjustment Frequency Months Count:
- Per Change Maximum Increase Rate Percent: %
- First Rate Adjustment Effective Date:
- Per Change Maximum Decrease Rate Percent: %

Finally, the 'Subsequent Adjustment' section:

- Per Change Rate Adjustment Frequency Months Count:
- Per Change Maximum Increase Rate Percent: %
- Subsequent Rate Adjustment Effective Date:
- Per Change Maximum Decrease Rate Percent: %

Note: For **Freddie Mac Document Custodians**, as part of the note certification process, the Custodian must verify, for ARM Notes with the revision date “(rev. 2/20)”, that the Lifetime Floor is equal to the ARM’s Margin as stated in the note. If it does not, the discrepancy will be reported in Loan Selling Advisor as a documentation issue (certification issue) and the Note will not be certified for sale.
