A mortgage secured by a condominium unit in a condominium project that receives a Not Eligible status is ineligible for sale to Freddie Mac and will be identified as such in Output (as defined in Section 2401.1(b)) of Condo Project Advisor, Loan Product Advisor® (LPASM), Loan Quality Advisor and Loan Selling Advisor.

Please reference [Bulletin 2023-24](#) for details.

Update to Loan Quality Advisor® Data Compare

Based on Seller feedback, we've removed the First-Time Homebuyer (FTHB) comparison in the Data Compare section. The following messages will no longer fire. We'll notify Sellers if they're added back in the future.

First-Time Homebuyer Indicator

- **DC7000** - The Borrower First-Time Homebuyer Indicator is either not a valid value or does not match the value(s) submitted in the last complete Loan Product Advisor transaction.
- **DC7001** - A data comparison cannot be completed for the Borrower First-Time Homebuyer Indicator because the Taxpayer Identifier Value(s) in LQA does not match the Social Security number(s) in Loan Product Advisor.
