# Loan Closing Advisor® Release Notes | December 8, 2018

The December 8, 2018, Loan Closing Advisor release improves functionality and usability by providing the following enhancements:

The following updates have been made to improve the user experience:

- **Empty** and **Null** fields will now be displayed as "- -". See example below:

- Enhanced the Loan Closing Advisor application to display the Address Unit Designator Type and Address Unit Identifier in the Property Address where applicable.

- Added an option in the GUI to download the XML file containing the Uniform Closing Dataset (UCD) with an embedded copy of the Closing Disclosure form.

- **System-to-System Enhancements**: A new system-to-system interface version 3.0 provides an option to receive the Loan Closing Advisor Feedback Certificate (Summary, Detail and/or both) in a PDF format. Refer to the published System-to-System package version 3.0 for more details.
