

# Submission Summary Report (SSR) Guide for UAD 3.6

August 2025

## Introduction

The Submission Summary Report (SSR) is a document accessed through the Uniform Collateral Data Portal® (UCDP®) that provides a consolidated view of all appraisal report file submissions associated with a loan, submission status, and rule validation results.

To support the Uniform Appraisal Dataset (UAD) and Forms Redesign Initiative, which introduced a redesigned single, dynamic Uniform Residential Appraisal Report (URAR), the SSR was updated to align with the new flexible URAR format. The UAD 3.6 SSR can be retrieved through UCDP for Fannie Mae and Freddie Mac (the GSEs) after a submission of a valid UAD 3.6 ZIP file.

## Enhancements to the UAD 3.6 SSR

### Additional SSR File Format Output

The UAD 3.6 SSR introduces two enhancements to its output format:

- **A comprehensive redesign of the SSR PDF** that incorporates color to emphasize submission status and highlight key fields, along with a reorganized layout designed to improve readability. The report also features dynamic fields that appear only when applicable and aligns to the requirements of the UAD 3.6 dataset.
- **Option to download the SSR in a new JSON file format.** This format is both human-readable and machine-friendly, making it ideal for data exchange and integration. It supports seamless interaction with modern RESTful APIs and is available via UCDP Direct Integration.

### Feedback on All Property Types

The UAD 3.6 SSR aligns with the requirements of UAD 3.6 and with the introduction of the dynamic URAR, which replaces traditional appraisal forms (e.g., the 1004 and 1073), provides a more flexible, data-driven structure. The new report format supports all property types and valuation methods, enabling the SSR to deliver tailored feedback.

### Addition of Key Data Points

In response to user feedback, the SSR has been enhanced to include critical data elements that enhance transparency and support decision-making. This includes:

- Fannie Mae Collateral Underwriter® CU Risk Score and Rep & Warrant relief eligibility for URAR submissions to Fannie Mae.
- Freddie Mac Loan Collateral Advisor® LCA Risk Score and Collateral Rep & Warranty relief indicator for URAR submissions to Freddie Mac.

### Comprehensive Feedback on Errors / Findings

To streamline the review process, the UAD 3.6 SSR features a simplified findings structure to help users quickly identify and resolve issues. Errors can be clearly referenced by report section and subsection, making it easier to locate and address issues.

- **System Findings:** Ensure the ZIP file and its contents are complete and properly structured.
- **UAD Compliance Findings:** Verify the XML file complies with the UAD 3.6 specifications.
- **GSE Proprietary Findings:** Provide feedback based on each GSE's appraisal requirements.

## What's in this Guide?

- **UAD 3.6 SSR PDF**  
Introduces the UAD 3.6 Submission Summary Report PDF, including its purpose and overall organizational structure.
- **SSR PDF Dynamic Structure**  
Describes the dynamic layout of the UAD 3.6 SSR PDF, which can include up to three URARs and up to two supplemental reports, based on data.
- **Loan Metadata**  
First section of the SSR PDF: captures the loan-level documentation and provides a consolidated view of all appraisal report file submission results under a single Document File ID.
- **Document Level Results**  
Second section of the SSR PDF: summarizes the results of each appraisal report file submitted at the Document ID level.
- **Submission Findings Results**  
Third section of the SSR PDF: summarizes the appraisal report file findings specific to that submission included within the Document Level Results.
- **UAD 3.6 SSR JSON**  
Introduces the machine-readable format of the SSR that supports interaction with modern RESTful APIs and is available via UCDP Direct Integration.
- **Appendix**
  - A. Related Resource Guides / Documents
  - B. Sample Fannie Mae URAR SSR PDF
  - C. Sample Freddie Mac URAR SSR PDF
  - D. Submission Summary Report List of Data Elements

## UAD 3.6 SSR PDF

The UAD 3.6 SSR PDF is organized into three sections:

- **Loan Metadata** displays the overall loan-level documentation and provides a consolidated view of all appraisal report file submission results under a single *Document File ID*.
- **Document Level Results** displays the results of the appraisal report file submission, identified by a *Document ID*.
- **Submission Findings Results** are tied to the Document Level Results of each appraisal report file submission and present the messages specific to that submission (at the *Document ID* level).

*This communication relates to the Uniform Mortgage Data Program®, an effort undertaken jointly by Fannie Mae and Freddie Mac at the direction of the Federal Housing Finance Agency.*

## SSR PDF Dynamic Structure

Each SSR PDF can include up to three URARs labeled as Appraisal 1, 2, or 3, and up to two additional reports associated with each URAR, such as the Restricted Appraisal Update Report and the Completion Report.

- For each URAR sequence:
  - **Appraisal 1 is required** and cannot be deleted once submitted. Revisions can be made via resubmissions to UCDP.
  - **Appraisal 2** is optional, can be revised, and can be deleted if not required.
  - **Appraisal 3** is optional, can be revised, and can be deleted if not required.
- Within each sequence, up to two additional reports, either a Restricted Appraisal Update Report or a Completion Report, can be submitted. The reports are automatically assigned to the corresponding URAR in that sequence.
  - **Restricted Appraisal Update Report** can be revised or deleted, if not required.
  - **Completion Report** can be revised or deleted, if not required.

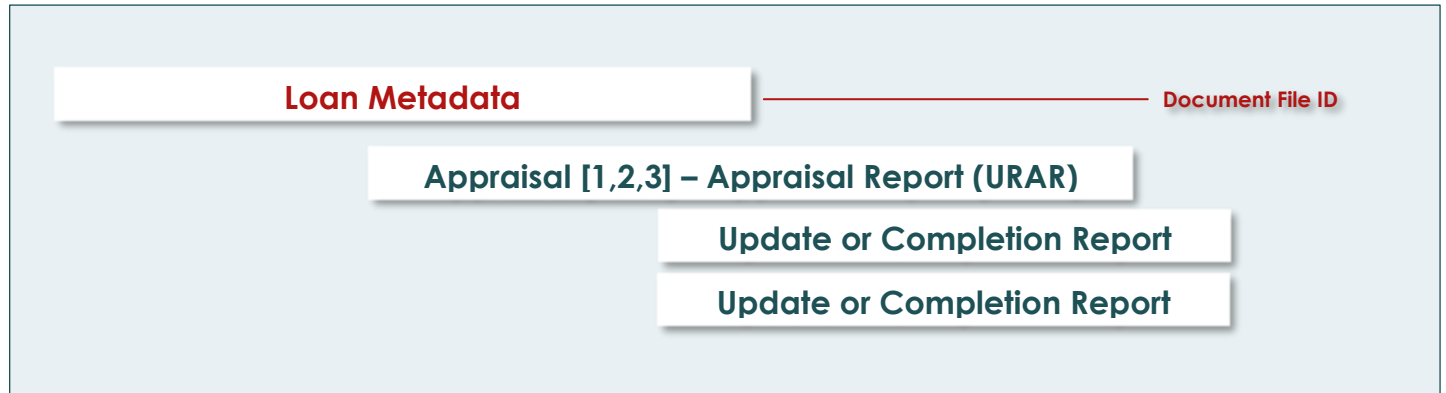

A URAR “anchors” each appraisal sequence. You must first submit the URAR before submitting a corresponding Restricted Appraisal Update Report or Completion Report.

**Tool Tip:** The layout of the UCDP UAD 3.6 “Appraisal: View/Edit” page is designed to mirror the sequence structure of a submission. Each appraisal sequence is represented by a separate tab in the UI. Once a new URAR is submitted to UCDP, you can submit the corresponding update and/or completion report file under the same tab associated with that sequence. For more details on uploading appraisal sequences in the UCDP UI, refer to the [UCDP User Guide | Fannie Mae](#) or the [UCDP User Guide | Freddie Mac](#).

## Loan Metadata

The **Loan Metadata** section captures the overall loan-level documentation and provides a consolidated view of all appraisal report file submission results under a single *Document File ID*.

## Document File Status

The Loan Metadata section highlights the *Document File Status*, the overall status of each submission under the *Document File ID*. The status is determined by the results of all document validations; if no fatal severity findings are fired, status is "Successful"; if fatal severity findings are fired, status is "Not Successful."

To achieve a "Successful" SSR for loan delivery, all fatal findings must be resolved. Resolving a fatal finding may require updating the underlying data and resubmitting a corrected appraisal report file.

## Loan Metadata

The Loan Metadata fields, listed below, include two Freddie Mac-specific data elements that appear in a third row only in the Freddie Mac version of the UAD 3.6 SSR:

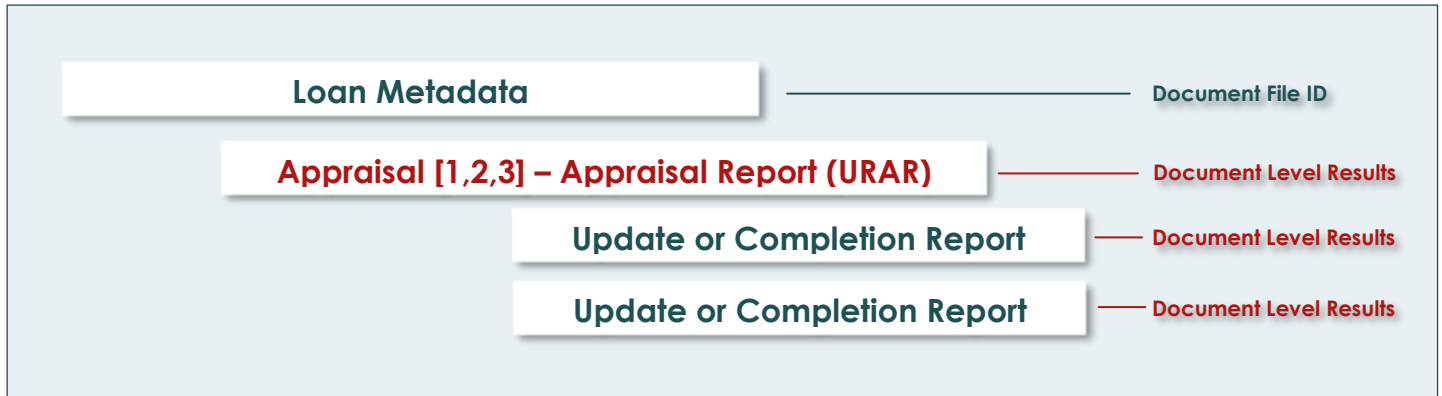

*Data Fields Specific to the Loan Metadata*

Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *
<b>Document File Status</b>	Status of all active appraisal report submissions associated with a property. The status is determined by the results of all document validations; if no fatal severity findings are fired, status is "Successful"; if fatal severity findings are fired, status is "Not Successful."	Both
<b>Document File ID</b>	A unique identifier assigned by UCDP to all appraisal document submissions associated with a property.	Both
<b>Lender Loan Number</b>	The unique Loan Number assigned by the lender. The Lender Loan Number is provided by the submitter of the first appraisal report submission and can be subsequently updated (i.e., corrected) by the submitter.	Both
<b>Lender Name</b>	The name of the lending organization submitting the appraisal report to UCDP. <b>Note: The Lender Name may differ between each GSEs' SSR.</b>	Both
<b>S/SN or Non S/SN (FNM)</b> <b>S/SN or TPO# (FRE)</b>	<i>Seller Number</i> The number or identifier assigned to a lender, (i.e., seller, non-seller or third-party originator), used to associate the appraisal submission with that lender. <b>Note: The Seller Number may differ between each GSEs' SSR.</b>	Both
<b>Report Date Time</b>	Date and time when the report was generated by the GSE.	Both
<b>Delivery S/SN</b>	Delivery Seller Number The Freddie Mac Seller/Servicer number used for delivery.	<b>FRE</b>
<b>Loan Prospector* Key</b>	The Freddie Mac-specific number that refers to the Loan Product Advisor® (LPA®) AUS Key.	<b>FRE</b>

\*Fannie Mae (FNM); Freddie Mac (FRE)

## Document Level Results

The **Document Level Results** summarize the results of each appraisal report file submitted under a *Document File ID*.

## Risk Scores and Representation and Warranty Eligibility

The **Document Level Results** include critical data elements that enhance transparency and support decision-making. This includes:

- Fannie Mae Collateral Underwriter CU Risk Score and Rep & Warrant relief eligibility for URAR submissions to Fannie Mae.
- Freddie Mac Loan Collateral Advisor LCA Risk Score and Collateral Rep & Warranty relief indicator for URAR submissions to Freddie Mac.

As with any part of the loan evaluation process, these indicators provide an early view from a collateral viewpoint and are pending an assessment of the loan.

Risk Score

*Data Fields Specific to the Risk Scores and Representation and Warranty Eligibility*

Field Name	Definition / Description	Appears on [FNM, FRE, Both] *
<b>Document Status</b>	Status of the appraisal report document associated with a property. The status is determined by the results of all document validations; if no fatal severity findings are fired, status is "Successful"; if fatal severity findings are fired, status is "Not Successful."	Both
<b>Fannie Mae Value Rep and Warranty Relief</b>	Fannie Mae indicator of whether the submitted document is eligible for representation and warranty relief.	FNM
<b>Fannie Mae Risk Score</b>	Fannie Mae score from 1.0 to 5.0 that represents the overall risk as determined by Collateral Underwriter (CU).	FNM
<b>Freddie Mac Collateral Rep and Warranty Relief</b>	Freddie Mac collateral representation and warranty relief eligibility corresponds to an appraisal report with a risk score of 2.5 or lower.	FRE
<b>Freddie Mac Risk Score</b>	Freddie Mac Loan Collateral Advisor Risk Score is real-time risk score that provides a view of overvaluation risk associated with an appraisal report. The scoring scale is between 1 and 5 in 0.5 increments with 1 representing the lowest risk of overvaluation and 5 representing the highest risk of overvaluation. Appraisals reports that are well aligned, or below the HVE point value, are considered to have a lower risk of overvaluation and, therefore, exhibit lower risk scores.	FRE

\*Fannie Mae (FNM); Freddie Mac (FRE)

## Property Types in the URAR

The dynamic **Uniform Residential Appraisal Report** (URAR), which replaces legacy forms like the 1004/70 and 1073/465, supports a flexible, data-driven format. This structure accommodates various property types and valuation methods, enabling tailored feedback.

There are six UAD data points in the Document Level Results that drive the property type identification for the URAR.

*Data Fields Specific to the Property Type for URAR*

### Data Fields Specific to the Property Type Identification

Field Name	Definition / Description	Appears on [FNM, FRE, Both] *
<i>Property Valuation Method</i>	A value that specifies the method by which the property value was assessed (e.g., Desktop Appraisal; Exterior Appraisal; Hybrid Appraisal; Traditional Appraisal).	Both
<i>Units Excluding ADUs</i>	The number of separate living units in the subject property, excluding any accessory dwelling units.	Both
<i>Accessory Dwelling Units (FRE) / Number of ADUs (FNM)</i>	The total number of accessory dwelling units in the subject property (e.g., in-law quarters, apartment over a garage, etc).	Both
<i>Project Legal Structure</i>	A value that specifies the form of ownership of a project. The Project Legal Structure Type defines the quality and quantity of project ownership and rights accruing to the individual unit owner (e.g., Condominium; Condop; Cooperative).	Both
<i>Construction Method</i>	A value that represents the manner in which the structure was constructed (e.g., Container; Manufactured; Modular; On Frame Modular; Other; SiteBuilt; Three-Dimensional Printing Technology).	Both

\*Fannie Mae (FNM); Freddie Mac (FRE)

**Tip:** For additional information on mapping legacy forms to the URAR property type characteristics, download the “Functioning without Form Numbers” resource guide by visiting either GSE’s UAD webpage: [Uniform Appraisal Dataset | Fannie Mae](#) or the [Uniform Appraisal Dataset | Freddie Mac](#).

## Submission Findings Results

**Submission Findings Results** are included within the **Document Level Results** of each appraisal report submission and present the findings specific to that submission.

### Severity Ratings

Severity indicates the level of impact and guides how urgently each finding should be addressed. While not all findings may be cleared from the SSR, all findings should be reviewed and considered.

Severity Rating	Definition	Appears on [FNM, FRE, Both] *
<b>Fatal</b>	These findings will cause the Document File Status and Document Status to be “Not Successful.” The only way to clear a Fatal severity finding is to change the underlying data and resubmit a corrected appraisal report file.	Fannie Mae / Freddie Mac
<b>Severe</b>	These findings indicate the collateral representation and warranty relief for property value eligibility decision is impacted. Message(s) should be reviewed, and action may need to be taken; however, these findings will not impact the Document File Status or Document Status.	Fannie Mae / Freddie Mac
<b>Warning</b>	These findings signal that an issue has been found that should be reviewed and action may need to be taken; however, these findings will not impact the Document File Status or Document Status.	Fannie Mae / Freddie Mac
<b>Informational</b>	These findings are for informational purposes. Informational severity findings will not impact the Document File Status or Document Status.	<b>Fannie Mae</b>
<b>Notification</b>	These findings are for informational purposes. Notification severity findings will not impact the Document File Status or Document Status.	<b>Freddie Mac</b>

\*Fannie Mae (FNM); Freddie Mac (FRE)

**Tip:** Severity ratings will vary by Finding Category. For example, System Findings only return “Fatal” and “Warning” severity ratings. Severity ratings are subject to change in future releases.

## Findings Categories

Findings are organized into three categories:

- **System Findings** focus on the completeness and validity of the submitted UAD 3.6 Appraisal ZIP File within UCDP.
- **UAD Compliance Findings** verify that the submitted XML file adheres to UAD 3.6 specifications.
- **GSE Proprietary Findings** provide feedback specific to each GSE's unique appraisal report requirements.

**Tip:** A comprehensive list of all finding messages that can return in the UAD 3.6 Submission Summary Report can be found on the GSEs' UCDP web pages: [Messaging Guide for UAD 3.6 | Fannie Mae](#) and [Freddie Mac Collateral Feedback Messages: Loan Collateral Advisor and UCDP for UAD 3.6 | Freddie Mac](#).

## System Findings

**UCDP System findings** relate to the submission of a UAD 3.6 ZIP file to the GSEs through UCDP. This includes all the documents within the ZIP file and any of its components.

These messages are the same for each GSE.

## UCDP System Findings

### Freddie Mac

#### System Findings

Severity	Message ID	Message
Warning	SYS9008	Missing Appraisal Image in Zip File: \\Images\\SF1_AbsorptionRate.jpg.

### Data Fields Specific to the System Findings

Field Name	Definition / Description	Additional Information
<b>Finding Category</b>	Defines the type of message (or finding) returned within the section.	Identified in Header
<b>Severity</b>	Indicates the level of impact of a particular message associated with an appraisal report finding and how urgently the finding should be addressed.	Fatal Warning
<b>Message</b>	The text description of each appraisal report finding.	
<b>Message ID</b>	A unique identifier assigned to each finding/message.	"SYS" Prefix

## UAD Compliance Findings

The **UAD 3.6 Compliance Findings** verify that the submitted XML file adheres to UAD 3.6 specifications. These are messages generated during a UAD compliance check that contains information about data format and completeness issues.

These messages are the same for each GSEs.

## Joint UAD Compliance Findings

### Fannie Mae

#### UAD Compliance Findings

Severity	Message ID	Message	Property Affected	Report Section	Report Subsection	Report Label / Value
Warning	UAD1259	The 'Effective Date of Appraisal' cannot be more than a year old.	N/A	Reconciliation	Appraisal Summary	Effective Date of Appraisal (2019-09-20)
Warning	UAD1506	The 'Date of Signature and Report' cannot be more than a year old.	N/A	Certifications	Signature	Date of Signature and Report (2019-09-20)

### Freddie Mac

#### UAD Compliance Findings

Severity	Message ID	Message	Property Affected	Report Section	Report Subsection	Report Label / Value
Warning	UAD1259	The 'Effective Date of Appraisal' cannot be more than a year old.	N/A	Reconciliation	Appraisal Summary	Effective Date of Appraisal (2019-09-20)
Warning	UAD1506	The 'Date of Signature and Report' cannot be more than a year old.	N/A	Certifications	Signature	Date of Signature and Report (2019-09-20)

### Data Fields Specific to the UAD Compliance Findings

Field Name	Definition / Description	Additional
<b>Finding Category</b>	Defines the type of message (or finding) returned within the section.	Identified in Header
<b>Severity</b>	Indicates the level of impact of a particular message associated with an appraisal report finding and how urgently the finding should be addressed.	Fatal Warning
<b>Message</b>	The text description of each appraisal finding.	
<b>Message ID</b>	A unique identifier assigned to each message.	“UAD” Prefix
<b>Property Affected</b>	Indicates if a property is affected by the finding, and, if so, whether the property is the subject or one of the comparable.	
<b>Comparable Number</b> <i>{Appears as part of Property Affected column when applicable}</i>	If the property affected by the findings is one of the comparable properties, this data point will appear in the Property Affected line indicating the number of the comparable (e.g., Property Ordinal Number).	Fannie Mae Freddie Mac
<b>Report Section</b>	The name of the appraisal report section associated with a specific appraisal report finding/message.	
<b>Report Subsection</b>	The name of the appraisal report subsection associated with a specific appraisal report finding/message.	
<b>Report Label / Value</b>	The business value/name or the value/name on the PDF appraisal report. This gives the user the location on the PDF where the issue/compliance edit occurred.	

### Proprietary Findings

**GSE Proprietary Findings** provide feedback specific to each GSE’s requirements.

These messages are specific to each GSE and can only be viewed in the SSR associated with the GSE to which the appraisal report was submitted.

### GSE Proprietary Findings

#### Fannie Mae

Fannie Mae Proprietary Findings						
Severity	Message ID	Message	Property Affected	Report Section	Report Subsection	Report Label / Value
Severe	FNM2154	Significant Real Property Appraisal Assistant could not be verified in the ASC database.	Subject	Assignment Information	Contact Information	Significant Real Property Appraisal Assistance - ID (null)
Warning	FNM2109	The subject property was made ‘Subject to Repair’. Make sure all that the repairs or alterations have been completed before the loan is delivered.	Subject	Reconciliation	Appraisal Summary	Market Value Condition

## Freddie Mac

### Freddie Mac Proprietary Findings

Severity	Message ID	Message	Property Affected	Report Section	Report Subsection	Report Label / Value
Warning	FRE32101	The appraisal does not include at least 2 sales that have Transfer Terms of Typically Motivated. Please ensure that the sales provided are the most comparable and reflect the market's reaction to any differences.	Comparables	Sales Comparison Approach	General Information	Transfer Terms (TypicallyMotivated;)
Notification	FRE10000	This appraisal report is eligible for appraised value representation and warranty relief, pending an assessment of the loan.	–	–	–	–
Notification	FRE10200	LCA Risk is assessed at 1 indicating a Very Low risk of overvaluation.	Subject	Reconciliation	Appraisal Summary	Opinion of Market Value (\$190,000)

### Data Fields Specific to the GSE Proprietary Findings:

Field Name	Definition / Description	Additional
<b>Finding Category</b>	Defines the type of message (or finding) returned within the section.	Identified in Header
<b>Severity</b>	Indicates the level of impact of a particular message associated with an appraisal report finding and how urgently the finding should be addressed.	Fatal Severe Warning Informational (FNM) Notification (FRE)
<b>Message</b>	The text description of each appraisal report finding.	
<b>Message ID</b>	A unique identifier assigned to each message.	“FNM” or “FRE” Prefix
<b>Property Affected</b>	Indicates if a property is affected by the finding, and, if so, whether the property is the subject or one of the comparable.	
<b>Comparable Number</b> <i>*Appears as part of Property Affected column, when applicable, for Fannie Mae Proprietary Findings.</i>	If the property affected by the finding is one of the comparables, this data point will appear in the Property Affected column indicating the number of the comparable (e.g., the Property Ordinal Number).	Fannie Mae
<b>Report Section</b>	The name of the appraisal report section associated with a specific appraisal report finding/message.	
<b>Report Subsection</b>	The name of the appraisal report subsection associated with a specific appraisal report finding/message.	
<b>Report Label / Value</b>	The business value/name or the value/name on the PDF appraisal report. This gives the user the location on the PDF where the issue/compliance edit occurred.	

## No Findings Returned

If no findings or messages are applicable a “**No Findings Returned.**” message will be displayed under the specific **Finding Category** section.

## UAD 3.6 SSR JSON

UCDP users have the option to retrieve the SSR in a **new JSON file format**. This format is machine-readable, making it ideal for data exchange and integration. It supports seamless interaction with modern RESTful APIs and is available via UCDP Direct Integration.

In addition to all the data elements found in the SSR PDF, the JSON format includes fields that support more technical use cases.

*Data Fields Specific to the JSON format SSR:*

Field Name	Definition / Description
<b>additionalAttributeKeyValues</b>	This is TBD (for future expansion).
<b>attachmentType</b>	A value that specifies the type of physical attachment, if any, between the dwelling and adjacent dwellings.
<b>dataPointName</b>	The XML element name of the associated primary data element.
<b>relatedFieldName</b>	The name of the appraisal report field that is related to a given rule. Contains 0, 1, or more related element names and their values to assist the reader in fully understanding the finding.
<b>reportPath</b>	The xpath or an abbreviated version of the xpath.
<b>uniqueId</b>	The unique UAD 3.6 data specification number assigned to each instance of a MISMO data point.

## D. Submission Summary Report List of Data Elements

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	
<b>Accessory Dwelling Units (FRE PDF)</b>	<i>accessoryDwellingUnitTotalCount</i>	The total number of accessory dwelling units in the subject property (e.g., in-law quarters, apartment over a garage, etc.)  <b>Note:</b> This data point appears as “Number of ADUs” in the Fannie Mae PDF.	FRE	X			PDF / JSON
<b>Appraisal Sequence Number</b>	<i>appraisalSequenceNumber</i>	A sequence number used to indicate the upload order of the documents into UCDP.	Both	X	X	X	PDF / JSON
<b>Appraisal Update Effective Date</b>	<i>appraisalUpdateReportEffectiveDate</i>	This is the date of when the appraiser’s analyses, opinions, and conclusions regarding the property’s values apply (are effective) on the Restricted Appraisal Update Report.	Both		X		PDF / JSON
<b>Appraiser Name</b>	<i>appraiserName</i>	The name of the appraiser who performed the appraisal of the property.	Both	X	X	X	PDF / JSON
<b>Assignment Reason</b>	<i>valuationAssignmentType</i>	Specifies the business reason that motivated the order for a valuation.	Both	X			PDF / JSON
<b>Borrower Name(s)</b>	<i>borrowers</i>	Identifies the name of either a person(s) or legal entity applying for the loan. May return up to six names (individual(s) and/or legal entity(ies)).	Both	X	X	X	PDF / JSON
<b>City</b>	<i>cityName</i>	The name of the city or Military APO FPO designation.	Both	X	X	X	PDF / JSON
<b>Construction Method(s)</b>	<i>constructionMethodType</i>	A value that represents the manner in which the structure was constructed (e.g., Container; Manufactured; Modular; On Frame Modular; Other; SiteBuilt; Three-Dimensional Printing Technology).	Both	X			PDF / JSON

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	PDF / JSON
<b>Date of Report Signature</b>	<i>appraiserExecutionDate</i>	The date the appraiser's signature was or will be affixed to the document.	Both	X	X	X	PDF / JSON
<b>Date of Report Signature {Supervisory Appraiser row}</b>	<i>supervisoryExecutionDate</i>	When present, the date the supervisory appraiser's signature was or will be affixed to the document.	Both	X	X	X	PDF / JSON
<b>Delivery S/SN</b>	<i>deliverySellerNumber</i>	The Freddie Mac Seller/Service number used for delivery.	FRE	X	X	X	PDF / JSON
<b>Document File ID</b>	<i>documentFileId</i>	A unique identifier assigned by UCDP to all appraisal document submissions associated with a property.	Both	X	X	X	PDF / JSON
<b>Document File Status</b>	<i>documentFileStatus</i>	Status of all active appraisal report submissions associated with a property. The status is determined by the results of all document validations; if no fatal severity findings are fired, status is "Successful"; if fatal severity findings are fired, status is "Not Successful".	Both	X	X	X	PDF / JSON
<b>Document ID</b>	<i>documentId</i>	A unique identifier assigned by UCDP to all appraisal report submissions associated with a property.	Both	X	X	X	PDF / JSON
<b>Document Status</b>	<i>documentStatus</i>	Status of the appraisal report submission associated with a property. The status is determined by the results of all document validations; if no fatal severity findings are fired, status is "Successful"; if fatal severity findings are fired, status is "Not Successful".	Both	X	X	X	PDF / JSON
<b>Document Type</b>	<i>documentType</i>	The type of report submitted to the UCDP, i.e., URAR, Restricted Appraisal Update Report, and Completion Report.  The Document Type values displayed in the SSR PDF are: Appraisal Report (URAR), Valuation Update	Both	X	X	X	PDF / JSON

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	
		(Restricted Appraisal Update Report), Valuation Completion (Completion Report).					
<b>Effective Date of Appraisal</b>	<i>appraisalReportEffectiveDate</i>	The date of when the appraiser's analyses, opinions, and conclusions regarding the subject property's values apply, (i.e., are effective).  <b>Note:</b> This date should match the "Original Effective Date of Appraisal" on the Restricted Appraisal Update Report and Completion Report.	Both	X			PDF / JSON
<b>Findings Category</b> <i>{Appears as section header, does not appear as discrete data point on PDF}</i>	<i>findingCategory</i>	Defines the type of message (or finding) returned within the section. Types of findings that are captured within the SSR: System Findings, UAD Compliance Findings, or Fannie Mae Proprietary Findings / Freddie Mac Proprietary Findings.	Both <i>Proprietary Findings will align with the GSE the report was requested from.</i>	X	X	X	PDF / JSON
<b>GSE Investor</b> <i>{GSE Investor appears as logo in top left of SSR; does not appear as discrete data point on PDF}</i>	<i>gseInvestor</i>	Identifies the GSE to which the report pertains.	Both	X	X	X	PDF / JSON
<b>Has the market value of the subject property decreased since the effective date of the original appraisal?</b>	<i>propertyMarketValueDecreasedIndicator</i>	Indicates whether the market value of a property has decreased. Generally used when updating a previous appraisal report on the same property.  Note: Appears only on the Restricted Appraisal Update Report.	Both		X		PDF / JSON
<b>Last Submission Date/Time</b>	<i>lastSubmissionDateTime</i>	The last date and time when the document was received for a given sequence/document type.	Both	X	X	X	PDF / JSON
<b>Lender Loan Number</b>	<i>lenderLoanNumber</i>	The unique Loan Number assigned by the lender. The Lender Loan Number is provided by the submitter of	Both	X	X	X	PDF / JSON

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	
		the first appraisal report submission and can be subsequently updated (i.e., corrected) by the submitter.					
<b>Lender Name</b>	<i>lenderName</i>	The name of the lending organization that is submitting the appraisal report to UCDP.  <b>Note:</b> The Lender Name may differ between each GSEs SSR.	Both	X	X	X	PDF / JSON
<b>License ID</b>	<i>licenseIdentifier</i>	The identifier of the license or certificate issued to the appraiser.  <b>Note:</b> Appears twice in a report when both general and supervisor appraiser role parties are present.	Both	X	X	X	PDF / JSON
<b>License State</b>	<i>licenseIssuingAuthorityStateCode</i>	The two-character representation of the US state code wherein the party is licensed or certified to operate.	Both	X	X	X	PDF / JSON
<b>License Type</b>	<i>appraiserLicenseType</i>	A code indicating the different types of appraisal licenses that can be held by an appraiser (e.g., Certified General; Certified Residential; Licensed Residential Appraiser; None; Other; Trainee Appraiser).  <b>Note:</b> Appears twice in report when both general and supervisor appraiser role parties are present.	Both	X	X	X	PDF / JSON
<b>Loan Prospector* Key</b>	<i>automatedUnderwritingCaseIdentifier</i>	The Freddie Mac-specific number that refers to the Loan Product Advisor® (LPA®) AUS Key.	FRE	X	X	X	PDF / JSON
<b>Message</b>	<i>messageText</i>	The text description of each appraisal finding.	Both	X	X	X	PDF / JSON

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	
<b>Message ID</b>	<i>messageId</i>	A unique identifier assigned to each finding/message.	Both	X	X	X	PDF / JSON
<b>Number of ADUs (FNM)</b>	<i>accessoryDwellingUnitTotalCount</i>	The total number of accessory dwelling units in the subject property (e.g., in-law quarters, apartment over a garage, etc.)  <b>Note:</b> this data point appears as “Accessory Dwelling Units” in the Freddie Mac PDF.	FNM	X			PDF / JSON
<b>Number of Resubmissions</b>	<i>resubmissionCount</i>	The number of resubmissions for a given sequence/document type.	Both	X	X	X	PDF / JSON
<b>Opinion of Market Value</b>	<i>opinionOfValueAmount</i>	The reconciled opinion of value in the appraisal report representing the conclusion of the approaches to value methods used by the appraiser.	Both	X			PDF / JSON
<b>Original Effective Date of Appraisal</b>	<i>originalAppraisalEffectiveDate</i>	The date of when the appraiser’s analyses, opinions, and conclusions regarding the property’s values apply, (i.e., are effective) on the original URAR, i.e., the effective date of the URAR that is associated with the Restricted Appraisal Update Report or Completion Report.	Both		X	X	PDF / JSON
<b>Original Submission Date/Time</b>	<i>originalSubmissionDateTime</i>	The original date and time when the document was received for a given sequence/document type.	Both	X	X	X	PDF / JSON
<b>Project Legal Structure</b>	<i>projectLegalStructureType</i>	A value that specifies the form of ownership of a project. The Project Legal Structure Type defines the quality and quantity of project ownership and rights accruing to the individual unit owner (e.g., Condominium; Condop; Cooperative).	Both	X			PDF / JSON
<b>Property Address</b>	<i>addressLineText</i>	The subject property address with the address number, pre-directional, street name, post-	Both	X	X	X	PDF / JSON

				URAR	Update Report	Completion Report	
		directional, address unit designators and address unit value.					
<b>Address Unit Designator Type</b> <i>{Part of Property Address; does not appear as discrete data point on PDF}</i>	<i>addressUnitDesignatorType</i>	A value that specifies a further level of detail for a street address. If there is a designator, it will return as "Unit."	Both	X	X	X	PDF / JSON
<b>Address Unit Identifier</b> <i>{Part of Property Address; does not appear as discrete data point on PDF}</i>	<i>addressUnitIdentifier</i>	The identifier value associated with the Secondary Address Unit Designator. Example: 123, C, B1C, etc.	Both	X	X	X	PDF / JSON
<b>Property Affected</b>	<i>propertyAffected</i>	Indicates if the property is affected by the finding, and, if so, whether the property is the subject or one of the comparable.	Both	X	X	X	PDF / JSON
<b>Comparable Number</b> <i>{Appears as part of the Property Affected; does not appear as discrete data point on PDF}</i>	<i>comparableNumber</i>	If the property affected by the finding is one of the comparables, this data point will appear in the Property Affected column indicating the number of the comparable (e.g., the Property Ordinal Number).	Both	X	X	X	PDF / JSON
<b>Property Valuation Method</b>	<i>propertyValuationMethodType</i>	A value that specifies the method by which the property value was assessed (e.g., Desktop Appraisal; Exterior Appraisal; Hybrid Appraisal; Traditional Appraisal).	Both	X			PDF / JSON
<b>Report Date/Time</b>	<i>reportDateTime</i>	Date and time when the report was generated by the GSE.	Both	X	X	X	PDF / JSON
<b>Report Label/Value</b>	<i>reportLabel</i>	The business value/name or the value/name on the PDF appraisal report. This gives the user the location	Both	X	X	X	PDF / JSON

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	
		on the PDF where the issue/compliance edit occurred.					
<b>Report Section</b>	<i>reportSection</i>	The name of the appraisal report section associated with a specific appraisal report finding/message.	Both	X	X	X	PDF / JSON
<b>Report Subsection</b>	<i>reportSubSection</i>	The name of the appraisal report subsection associated with a specific appraisal report finding/message.	Both	X	X	X	PDF / JSON
<b>Risk Score</b> <b>{Fannie Mae}</b>	<i>fnmRiskScore</i>	Fannie Mae score from 1.0 to 5.0 that represents the overall risk as determined by Collateral Underwriter (CU).	FNM	X			PDF / JSON
<b>Risk Score</b> <b>{Freddie Mac}</b>	<i>freRiskScore</i>	Freddie Mac Loan Collateral Advisor (LCA) Risk Score is real-time risk score that provides a view of overvaluation risk associated with an appraisal. The scoring scale is between 1 and 5 in .5 increments with 1 representing the lowest risk of overvaluation and 5 representing the highest risk of overvaluation. Appraisals that are well aligned, or below the HVE point value, are considered lower risk of overvaluation and, therefore, exhibit lower risk scores.	FRE	X			PDF / JSON
<b>S/SN or Non S/SN (FNM)</b> <b>S/SN or TPO # (FRE)</b>	<i>sellerNumber</i>	The number or identifier assigned to a lender, (i.e., seller, non-seller, or third-party organization), used to associate the appraisal submission with that lender.  <b>Note:</b> The Seller Number may differ between each GSEs' SSR.	Both	X	X	X	PDF / JSON

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	
<b>Severity</b>	<i>severity</i>	Indicates the level of impact of a particular message associated with an appraisal report finding and how urgently the finding should be addressed.	Finding Severities will align for: System and UAD  Severity ratings will differ for Proprietary Findings; severity ratings will align with the GSE the report was requested from.	<b>X</b>	<b>X</b>	<b>X</b>	PDF / JSON
<b>State</b>	<i>stateCode</i>	The two-character representation of the US state codes, "DC," or one of the US Territory codes.	Both	<b>X</b>	<b>X</b>	<b>X</b>	PDF / JSON
<b>Subject Site Owned in Common</b>	<i>landOwnedInCommonIndicator</i>	When true, indicates land associated with the subject property parcel is owned by an association, condominium project, or cooperative.	Both	<b>X</b>			PDF / JSON
<b>Supervisory Appraiser Name</b>	<i>supervisoryAppraiserName</i>	The name of the supervisory appraiser who performed the appraisal of the property.	Both	<b>X</b>	<b>X</b>	<b>X</b>	PDF / JSON
<b>Units Excluding ADUs</b>	<i>livingUnitExcludingAccessoryCount</i>	The number of separate living units in the subject property, excluding any accessory dwelling units.	Both	<b>X</b>			PDF / JSON
<b>Value R&amp;W</b>	<i>freValueRepAndWarrantyRelief</i>	Freddie Mac collateral representation and warranty relief eligibility corresponds to an appraisal with a risk score of 2.5 or lower.	FRE	<b>X</b>			PDF / JSON
<b>Value Rep and Warranty Relief</b>	<i>fnmValueRepAndWarrantyRelief</i>	Fannie Mae indicator whether the submitted document is eligible for representation and warranty relief.	FNM	<b>X</b>			PDF / JSON

PDF Data Point Name	JSON SSR Field Name	Definition / Description	Appears on... [FNM, FRE, Both] *	Report Type			Format Type
				URAR	Update Report	Completion Report	PDF / JSON
<b>ZIP Code</b>	<i>postalCode</i>	The postal code (ZIP Code in the US) for the address. ZIP Code may be either 5 or 9 digits.	Both	X	X	X	PDF / JSON
--	<i>additionalAttributeKeyValues</i>	This is TBD (for future expansion).	Both	X	X	X	JSON
--	<i>attachmentType</i>	A value from a MISMO-prescribed list that specifies the type of physical attachment, if any, between the dwelling and adjacent dwellings.	Both	X	X	X	JSON
--	<i>dataPointName</i>	The XML element name of the associated primary data element.	Both	X	X	X	JSON
--	<i>relatedFieldName</i>	The name of the appraisal form field that is related to a given rule. May contain 0, 1, or more related element names and their values to assist the reader in fully understanding the finding.	Both	X	X	X	JSON
--	<i>reportPath</i>	The xpath or an abbreviated version of the xpath.	Both	X	X	X	JSON
